

How to fly the island airports in a variety of conditions

Jim Higginson was a long-time aviator in the San Juan Islands. He flew the postal route there many years ago, as he was beginning his aviation career. Jim has invaluable information as to how to approach the islands under a variety of weather and wind conditions, and this will be the essence of his talk, accompanied by a video he shot himself. Finally, A Question and Answer session will follow the presentations.
